

Boulder County CWPP

The Forester's Work Group identified seven landscape areas

Landscape Area Ranking by Wildfire Hazard

Landscape	Total Acres	% of Land with Extreme or High Wildfire Hazard	Rank	Acres with Extreme or High Wildfire Hazard	Rank
Forsythe	33,452	69%	1	23,240	2
Buttonrock	36,839	65%	2	23,953	1
Jamestown	32,624	64%	3	20,745	4
Allenspark	44,615	47%	4	20,875	3

Wildfire hazard includes likelihood of wildfire occurrence (probability an area will burn) and anticipated fire intensity (FlamMap crown fire potential and flame length)

Landscape Area Ranking by Values at Risk

Landscape	Total Acres	% of Land with Exceptional, High or Moderate Values at Risk	Rank	Acres with Exceptional, High or Moderate Values at Risk	Rank
Lee Hill	27,337	83%	1	22,581	3
Forsythe	33,452	75%	2	25,000	2
Buttonrock	36,839	71%	3	26,134	1

Values at risk include structure density, homes, water supply zones, historical sites, key ecological areas, and roads and railroads
