

## Agenda

St Vrain/Buttton Rock Forestry Health Committee

2:00-4:30 pm, February 13<sup>th</sup> 2020

Lyons Regional Library

451 4th Ave, Lyons, CO 80540

**Welcome & Introductions & Review Meeting Purpose**      Jessie Olson      2:00 PM

- Start of a collaborative team that will help define and shape vision for the future of our forests and begin large-scale forestry health planning, starting in Buttton Rock/St. Vrain Watershed.

**Why Here, Why now?**      USFS/Boulder County/City of Longmont      2:10 PM

- Discuss current planning efforts, current planning area, and regional importance of doing forestry health work in this area.

**State of the Science**      Rob Addington      2:30 PM

- Presentation on the trajectory of our forests in relation to ecology and fire risk (looking at both the upper montane & lower montane). Rob will describe the attributes of a healthy, resilient, forest and discuss how that relates to the current condition of our forests.

**Visioning Session**      All      3:15 PM

- What is our collective vision for the future condition of our forests in this area? What outcomes would we like to achieve? (Small groups to discuss questions.)

**Documenting what we learned**      Paul Orbuch      3:50 PM

- Groups report out on what they discussed
- Compile list of the group's desired outcomes and attributes for our forests.

**Next Steps & Action Items**      Jessie Olson      4:20 PM

- Potential Dates for Next Meeting (March 19<sup>th</sup>, 20<sup>th</sup>, or April 3<sup>rd</sup>, 8<sup>th</sup>, 9<sup>th</sup>)
- Discuss how to get your agency/community/neighborhood to get involved in this project and/or how to distribute information.
- Discuss how to memorialize this discussion.

**Adjourn** (to optional social at Oscar Blues)      4:30 PM
